

## **New AEU partnership to offer access to DuPont safety videos!**

5/19/2015

The American Equity Underwriters, Inc. and DuPont, a world leader in safety, have partnered together to provide our Members with access to just in time training relevant to the maritime industry via CoastalFlix™ streaming video.

AEU recognizes our Members are constantly looking for ways to provide safety training to their employees. We also recognize DuPont Sustainable Solutions as a leader in industry safety videos as well as a leading innovator in multi-lingual e-learning course content. Together, we've made access to safety training easy for our Members. ALMA Members can now use any web-enabled device to stream safety videos for free in the classroom, at a desk, or in the field directly from [amequity.com](http://amequity.com).

By partnering with DuPont Sustainable Solutions, AEU can provide our Members access to cutting edge safety solutions, helping to make our industry safer.
